Zoom Webinar ID: 952-3509-8080 (applies to all)

Teleconference Dial In
+1 669 900 6833

One Tap Mobile
+16699006833, 95235098080

Audience will be allowed to provide public comment through telephone or Zoom connection during public comment periods

PUBLIC COMMENT WILL STILL BE TAKEN

*Members of the public may address this body concerning any agenda item before or during consideration of that item (Gov't Code Section 54954.3(a)). If you wish to comment on an agenda item or during the public comment period, please "raise your hand" on Zoom or dial *9 on your phone. All agendas for regular meetings are posted at District Headquarters, 21865 Copley Drive, Diamond Bar, California, at least 72 hours in advance of the regular meeting. Speakers may be limited to three (3) minutes each.*

CALL TO ORDER

Opening Comments: Larry McCallon, MSRC Chair
Other MSRC Members
Naveen Berry, Asst. DEO/Science & Technology Advancement

STATUS REPORT

Clean Transportation Policy Update

Ravenstein

The Clean Transportation Policy Update provides information on key legislative and regulatory initiatives of potential interest to the MSRC. The report can be viewed at www.cleantransportationfunding.org.

CONSENT CALENDAR (Items 1 through 3)

Information Only - Receive and File

1. MSRC Contracts Administrator's Report

Ravenstein

This report covers key issues addressed by MSRC staff, status of open contracts, and administrative scope changes from August 27 through September 23, 2020.

2. Financial Report on AB 2766 Discretionary Fund

Kampa

- Financial Report for September 2020.

For Approval – As Recommended

3. Consider Substitution of 40 Public Access Charging Ports for 32 Public Access Charging Stations, Substitution of 10 Limited Access Charging Ports for 7 Limited Access Stations, Location Changes, Reallocation of Funds Between Tasks, and 19-Month Term Extension by City of Santa Monica, Contract #ML18080 (\$121,500 – Install EV Charging Stations)

Ravenstein

In order to better serve the needs of their residents, the City requests to change some locations and use multi-port charging stations in some cases, substituting the installation of 40 total public access Level II charging ports for the installation of 32 Level II charging stations and substituting the installation of 10 limited access charging ports for 7 limited access stations. The City further requests to reallocate \$944 which was originally budgeted for limited access stations to the public access charging ports. Lastly, due to unforeseen project delays associated with budget and staff cuts and shifted City priorities due to COVID-19, the City requests a 19-month term extension. **THE MSRC-TAC UNANIMOUSLY RECOMMENDS APPROVAL**

ACTION CALENDAR (Items 4 through 7)

2014-16 WORK PROGRAM

4. Consider Four-Month Term Extension by Los Angeles County Metropolitan Transportation Commission (Metro), Contract #MS16090 (\$2,500,000 – Expansion of the Willowbrook/Rosa Parks Transit Station)

Ravenstein

Greater than anticipated coordination and design requirements with Union Pacific Railroad and the County of Los Angeles have delayed project progress. Metro requests a four-month term extension. **THE MSRC-TAC UNANIMOUSLY RECOMMENDS APPROVAL OF A TWELVE-MONTH TERM EXTENSION**

2018-21 WORK PROGRAM

5. Consider RFP for Zero and Near-Zero Trucking to the Warehouse, Distribution and Intermodal Facilities in Riverside & San Bernardino Counties and RFP for Zero and Near-Zero Cargo Handling Equipment at Warehouse, Distribution and Intermodal Facilities in Riverside & San Bernardino Counties

Olson

At their September 17, 2020 meeting, the MSRC directed the development of RFPs for on- and off-road goods movement projects associated with the “Inland Ports” — warehouse and distribution facilities located in Riverside and San Bernardino Counties. Proposed draft RFPs are being brought forward for MSRC consideration. A combined total of \$20 million in MSRC funding would be available under the proposed RFPs. **THE MSRC-TAC UNANIMOUSLY RECOMMENDS APPROVAL**

6. Receive Update on Proposed Partnership with South Coast AQMD and Regional Partners on Large-Scale Zero Emission Demonstration

Berry

The California Air Resources Board and the California Energy Commission are shortly expected to release solicitations offering a total of \$40 million in funding for large-scale demonstrations of zero emission drayage trucks. South Coast AQMD is leading a regional team to pursue this funding. This item will provide a preliminary overview of the team’s proposed project. (*No written material*)

7. Consider Options to Support Making the Current Suspension of Certain Requirements of the Brown Act Permanent

Better World
Group
Advisors

In light of the declaration of a State of Emergency in California as a result of the threat of COVID-19, Governor Newsom issued Executive Orders N-25-20 (March 12, 2020) and N-29-20 (March 17, 2020). Among other provisions, these Executive Orders waived requirements requiring the physical presence of members and authorized meetings to be held via teleconferencing or otherwise electronically. At their September 17, 2020 meeting, MSRC members noted that these changes have resulted in decreased travel to meetings and a higher rate of participation. The MSRC directed that an item be placed on their next agenda to consider options in support of making the current Brown Act changes permanent. This item would outline potential actions and considerations for the MSRC. (No written material) **THE MSRC-TAC DID NOT CONSIDER THIS ITEM**

OTHER BUSINESS

8. **Any member of the committee, on his or her own initiative or in response to questions posed by the public, may ask a question for clarification, may make a brief announcement or report on his or her own activities, provide a reference to staff regarding factual information, request staff to report back at a subsequent meeting concerning any matter, or may take action to direct staff to place a matter of business on a future agenda. (Gov't Code Section 54954.2)*

McCallon

PUBLIC COMMENT PERIOD - (Public Comment on Non-Agenda Items, Pursuant to Government Code Section 54954.3)

At the end of the regular meeting agenda, an opportunity is provided for the public to speak on any subject within the Committee's authority that is not on the agenda. Speakers may be limited to three (3) minutes each.

ADJOURNMENT

NEXT MEETING: Date: November 19, 2020, 2:00 p.m., Location TBD

Americans with Disabilities Act and Language Accessibility

Disability and language-related accommodations can be requested to allow participation in the MSRC Meeting. The agenda will be made available, upon request, in appropriate alternative formats to assist persons with a disability (Gov't Code Section 54954.2(a)). In addition, other documents may be requested in alternative formats and languages. Any disability or language-related accommodation must be requested as soon as practicable. Requests will be accommodated unless providing the accommodation would result in a fundamental alteration or undue burden to the District. Please contact Ms. Penny Shaw Cedillo at (909) 396-3179 from 7:00 a.m. to 5:30 p.m., Tuesday through Friday, or send the request to pcedillo@aqmd.gov.

Pursuant to SB 343

All documents (i) constituting non-exempt public records, (ii) relating to an item on an agenda for a regular meeting, and (iii) having been distributed to at least a majority of the Committee after the Agenda is posted, are available by contacting Penny Shaw Cedillo at (909) 396-3179 or send the request to pcedillo@aqmd.gov

Contacts: Cynthia Ravenstein, MSRC Contracts Administrator - (909) 396-3269
Ray Gorski, MSRC Technical Advisor – (909) 396-2479
Penny Shaw Cedillo, MSRC Administrative Liaison – (909) 396-3179

INSTRUCTIONS FOR ELECTRONIC PARTICIPATION

Instructions for Participating in a Virtual Meeting as an Attendee

As an attendee, you will have the opportunity to virtually raise your hand and provide public comment.

Before joining the call, please silence your other communication devices such as your cell or desk phone. This will prevent any feedback or interruptions during the meeting.

Please note: During the meeting, all participants will be placed on mute by the host. You will not be able to mute or unmute your lines manually.

After each agenda item, the Chair will announce public comment.

A countdown timer may be displayed on the screen for each public comment.

If interpretation is needed, more time will be allotted.

Once you raise your hand to provide public comment, your name will be added to the speaker list. Your name will be called when it is your turn to comment. The host will then unmute your line.

Directions for Video ZOOM on a DESKTOP/LAPTOP:

- If you would like to make a public comment, please click on the **“Raise Hand”** button on the bottom of the screen.
- This will signal to the host that you would like to provide a public comment and you will be added to the list.

Directions for Video Zoom on a SMARTPHONE:

- If you would like to make a public comment, please click on the **“Raise Hand”** button on the bottom of your screen.
- This will signal to the host that you would like to provide a public comment and you will be added to the list.

Directions for TELEPHONE line only:

- If you would like to make public comment, please **dial *9** on your keypad to signal that you would like to comment.

AGENDA ITEM #1

MSRC Contracts Administrator's Report

MSRC Agenda Item No. 1

DATE: October 15, 2020

FROM: Cynthia Ravenstein

SUBJECT: AB 2766 Contracts Administrator's Report

SYNOPSIS: This report covers key issues addressed by MSRC staff, status of open contracts, and administrative scope changes from August 27 to September 23, 2020.

RECOMMENDATION: Receive and file report

WORK PROGRAM IMPACT: None

Contract Execution Status

2016-18 Work Program

On July 8, 2016, the SCAQMD Governing Board approved an award under the Event Center Transportation Program. This contract is executed.

On October 7, 2016, the SCAQMD Governing Board approved three awards under the Event Center Transportation Program and one award for a Regional Active Transportation Partnership Program. These contracts are executed.

On January 6, 2017, the SCAQMD Governing Board approved an award for development, hosting and maintenance of a new MSRC website. This contract is executed.

On April 7, 2017, the SCAQMD Governing Board approved an award under the Event Center Transportation Program. This contract is executed.

On June 2, 2017, the SCAQMD Governing Board approved an award under the Event Center Transportation Program. This contract is executed.

On July 7, 2017, the SCAQMD Governing Board approved an award under the Event Center Transportation Program. This contract is executed.

On September 1, 2017, the SCAQMD Governing Board approved one award under the Event Center Transportation Program and one award under the Natural Gas Infrastructure Program. These contracts are executed.

On October 6, 2017, the SCAQMD Governing Board approved two awards under the Event Center Transportation Program and one award under the Natural Gas Infrastructure Program. These contracts are executed.

On December 1, 2017, the SCAQMD Governing Board approved sole source awards for a Hydrogen Infrastructure Partnership Program, for a Southern California Future Communities Partnership Program, and for electric vehicle charging infrastructure planning analysis. These contracts are executed. The MSRC has replaced the award to the California Energy Commission with a Program Opportunity Notice for the Hydrogen Infrastructure Partnership Program.

On February 2, 2018, the SCAQMD Governing Board approved one award under the Event Center Transportation Program, two awards under the Natural Gas Infrastructure Program, four awards under the Local Government Partnership Program, and two awards under the County Transportation Commission Partnership Program. These contracts are executed.

On March 2, 2018, the SCAQMD Governing Board approved one award under the Major Event Center Transportation Program, two awards under the Natural Gas Infrastructure Program, and one award under the Local Government Partnership Program. These contracts are executed.

On April 6, 2018, the SCAQMD Governing Board approved one award under the Natural Gas Infrastructure Program and eight awards under the Local Government Partnership Program. These contracts are executed.

On May 4, 2018, the SCAQMD Governing Board approved twenty-seven awards under the Local Government Partnership Program and one award under the County Transportation Commission Partnership Program. These contracts are executed.

On June 1, 2018, the SCAQMD Governing Board approved six awards under the Local Government Partnership Program, one award under the Natural Gas Infrastructure Program, and one award under the County Transportation Commission Partnership Program. These contracts are executed.

On July 6, 2018, the SCAQMD Governing Board approved nine awards under the Local Government Partnership Program. These contracts are executed.

On September 7, 2018, the SCAQMD Governing Board approved nineteen awards under the Local Government Partnership Program, three awards under the County Transportation Commission Partnership Program, one award under the Major Event Center Transportation Program, and twenty awards under the Natural Gas Infrastructure Program. These contracts are with the prospective contractor for signature, with the South Coast AQMD Board Chair for signature, or executed.

On October 5, 2018, the SCAQMD Governing Board approved forty-eight awards under the Local Government Partnership Program and one award under the Hydrogen Infrastructure Program. These contracts are with the prospective contractor for signature or executed.

On November 2, 2018, the SCAQMD Governing Board approved two awards under the Local Government Partnership Program. These contracts are executed.

2018-21 Work Program

On April 5, 2019, the SCAQMD Governing Board approved an award under the Major Event Center Transportation Program. This contract is executed.

On September 6, 2019, the SCAQMD Governing Board approved an award under the Major Event Center Transportation Program. This contract is executed.

On December 6, 2019, the SCAQMD Governing Board approved an award under the Major Event Center Transportation Program. This contract is undergoing internal review.

Work Program Status

Contract Status Reports for work program years with open and/or pending contracts are attached.

FY 2010-11 Work Program Contracts

One contract from this work program year is open; and 9 are in “Open/Complete” status. One contract closed during this period: City of Rancho Cucamonga, Contract #ML11023 – Expand Existing CNG Station and Purchase 2 Heavy-Duty CNG Vehicles.

FY 2010-11 Invoices Paid

No invoices were paid during this period.

FY 2011-12 Work Program Contracts

6 contracts from this work program year are open, and 13 are in “Open/Complete” status.

FY 2011-12 Invoices Paid

No invoices were paid during this period.

FYs 2012-14 Work Program Contracts

16 contracts from this work program year are open, and 32 are in “Open/Complete” status.

FYs 2012-14 Invoices Paid

One invoice in the amount of \$7,500.00 was paid during this period.

FYs 2014-16 Work Program Contracts

42 contracts from this work program year are open, and 30 are in “Open/Complete” status.

FYs 2014-16 Invoices Paid

3 invoices totaling \$544,655.42 were paid during this period.

FYs 2016-18 Work Program Contracts

119 contracts from this work program year are open, and 29 are in “Open/Complete” status.

8 invoices totaling \$1,023,565.55 were paid during this period.

FYs 2018-21 Work Program Contracts

2 contracts from this work program year are open.

No invoices were paid during this period.

Administrative Scope Changes

No administrative scope changes were initiated during this period.

AGENDA ITEM #3

Contract Modification Request by
City of Santa Monica

MSRC-TAC Agenda Item No. 3

DATE: October 15, 2020

FROM: Cynthia Ravenstein, MSRC Contracts Administrator

SUBJECT: Substitution of 40 Public Access Charging Ports for 32 Public Access Charging stations, Substitution of 10 Limited Access Charging Ports for 7 Limited Access Stations, Location Changes, Reallocation of Costs Between Tasks, and 19-Month Term Extension by City of Santa Monica, Contract #ML18080

SYNOPSIS: In order to better serve the needs of their residents and staff, the City requests to change some locations and use multi-port charging stations in some cases, substituting the installation of 40 total public access Level II charging ports for the installation of 32 Level II charging stations and substituting the installation of 10 limited access charging ports for 7 limited access stations. The City further requests to reallocate \$944 which was originally budgeted for limited access stations to the public access charging ports. Lastly, due to unforeseen project delays associated with budget and staff cuts and shifted City priorities due to COVID-19, the City requests a 19-month term extension, as part of the FYs 2016-18 Local Government Partnership Program.

FINANCIAL IMPACT: The requested cost reallocation would not impact the overall project award.

RECOMMENDATIONS: The MSRC-TAC reviewed the request and recommends approval

ATTACHMENTS: Contractor's letter requesting modification

DISCUSSION:

Contractor: **City of Santa Monica**

Project Title: Install EV Charging Stations

MSRC Funding: \$121,500

Project Term: January 10, 2019 to December 9, 2023

Current Request: Substitute 40 public ports for 32 public stations, substitute 10 limited access ports for 7 limited access stations, change locations, reallocate funds, and 19-month term extension

Previous Requests: None

Project Description: The MSRC awarded the City \$121,500 to install EV charging stations. Of this amount, \$106,077 was for the installation of 32 publicly accessible Level II charging stations, and \$15,423 was for the installation of 7 limited access Level II charging stations. One single-port public access station and five dual-port limited access stations have been completed and \$14,748.62 has been paid to date on this contract.

Contract Request: In order to better serve the needs of their residents and staff, the City requests to change some locations and use multi-port charging stations in some cases, substituting the installation of 40 total public access Level II charging ports for the installation of 32 Level II charging stations. Following the submission of the City's request, MSRC staff clarified with City representatives that they were also requesting to substitute the installation of 10 limited access charging ports for 7 limited access stations. These modifications would result in a greater number of charging ports overall, exceeding expectations for both public and limited access, for the same MSRC investment.

The City further requests to reallocate \$944 which was originally budgeted for limited access stations to the public access charging ports. The City was able to complete the limited access installations at a lower cost than anticipated, and seeks to direct the savings towards installing a larger number of public access ports than currently required.

Lastly, due to unforeseen project delays associated with budget and staff cuts and shifted City priorities due to COVID-19, the City requests a 19-month term extension.

Recommendations: The MSRC-TAC reviewed the request and recommends approval.

Subject: Modification to MSRC Contract No. ML18080 – City of Santa Monica

To Whom it May Concern:

Due to unforeseen project delays and changes (including budget and staff cuts, and shifted City priorities due to COVID-19), the City of Santa Monica would like to request the following modifications to Contract No. ML18080 as part of the MSRC Clean Transportation Program:

- Substitute the installation of 39 public access ports for 32 public access stations;
- Reallocate unused balance of \$944 from limited access stations to public access stations;
- Extend the contract term by 19 months (stations operational by June 2022); and
- Update the location list with the following sites (all have 24-hour access):

Priority Sites	Address	Total Ports
Gandara Park	1819 Stewart St	3
Los Amigos Park	500 Hollister Ave	2
Lot 9	2725 Neilson Way	4
Reed Park	1133 7th Ave	2
Joslyn Park	633 Kensington Rd	4
Marine Park	1406 Marine St	4
620 Idaho	620 Idaho Ave	2
Lot 26	150 Strand St	2
Montana Library	1704 Montana Ave	1
Fairview Library	2101 Ocean Park Blvd	1
431- 525 Wilshire	431 and 525 Wilshire Blvd	4
Lot 27	1320 5th St	4
Lot 30	1657 Ocean Ave	2
1518 Idaho (Wilmont)	1518 Idaho	2

1050 California (Wilmont)	1050 California	2
Total		39

Thank you for supporting transportation electrification in Santa Monica.

Sincerely,

Ariana Vito

AGENDA ITEM #4

Contract Modification Request by
Los Angeles County MTA

MSRC Agenda Item No. 4

DATE: October 15, 2020

FROM: Cynthia Ravenstein, MSRC Contracts Administrator

SUBJECT: Four-Month Term Extension by Los Angeles Metropolitan Transportation Authority (Metro), Contract #MS16090

SYNOPSIS: Greater than anticipated coordination and design requirements with Union Pacific Railroad and the County of Los Angeles have delayed project progress. Metro requests a four-month term extension as part of the FYs 2014-16 Transportation Control Measure Partnership Program.

FINANCIAL IMPACT: None

RECOMMENDATIONS: The MSRC-TAC reviewed the request and recommends approval of a 12-month term extension

ATTACHMENTS: Contractor's letter requesting modification

DISCUSSION:

Contractor: Los Angeles County Metropolitan Transportation Authority

Project Title: Expansion of the Willowbrook/Rosa Parks Transit Station

MSRC Funding: \$2,500,000

Project Term: October 27, 2016 to October 26, 2020

Current Request: Four-month term extension

Previous Requests: Six-month term extension

Project Description: Metro was awarded \$2,500,000 under the MSRC's FYs 2014-16 Transportation Control Measure Partnership Program towards the expansion of the Willowbrook/Rosa Parks Transit Station. Construction of the Civic Plaza, new Metro buildings, A Line platform improvements, new pedestrian crossing and new mezzanine are substantially complete. The reconfiguration of the existing Park & Ride lot, construction of a new passenger pick-up/drop-off area, and upgrades to the existing bus depots are not yet complete. Nothing has been paid to date on this contract.

Previous Request: Metro indicated that reductions in Union Pacific Railroad (UPRR) staffing had delayed progress on the project. Additionally, security concerns dictated that certain project elements be constructed sequentially, rather than concurrently as originally planned. Metro requested a six-month term extension. This request was processed administratively.

Contract Request: Metro indicates that the earlier delays necessitated the installation of a temporary station entrance to allow for A Line operation to open to the public in November 2019, as well as additional safety measures at the A Line South entrance. This has entailed unforeseen additional coordination with UPRR staff and additional design work. There is also unanticipated scope, time and cost to remove the temporary measures.

Additionally, in the course of final coordination with Caltrans and Los Angeles County Public Works, there was an unexpected change in the requirements related to stormwater release, increasing the required coordination, design, costs and time for this element of the project. Metro requests a four-month contract term extension to complete the work.

Recommendations: The MSRC-TAC reviewed the request. Given some uncertainty whether the requested 4-month extension would be sufficient for completion of all reporting requirements, the MSRC-TAC recommends approval of a 12-month term extension.

RE: MSRC Contract No. MS16090 – Request for Extension

Cynthia,

The purpose of this letter is to request MSRC Staff's concurrence with a four (4)-month extension to the contract period ending October 26, 2020, for the Willowbrook/Rosa Parks Station Improvement Project (Project). The majority of the work on the Project has been completed and construction is currently at 76%, highlighted by the opening of the new extended A line platform featuring a new canopy, digital screens, signage, security cameras, and LED lights. In October 2020, the new Customer Center & Security Building and Mobility Hub will be ready for occupancy and open to the public subject to COVID-19 restrictions.

Recent unanticipated conditions have resulted in delays to the Project; however, Metro is committed to completing the Project by February 2021. To provide context for the delays, it is important to first understand the phasing of the Project. Due to the various third-party agencies with jurisdiction on various areas of the Project and to ensure delays did not affect work starting or jeopardize the grant funds, the overall project was divided into three main phases and design packages:

- **Package A&C** – Consists of the Civic Plaza, new Metro buildings, A Line platform improvements and new pedestrian crossing and new mezzanine, respectively. The construction of these packages are substantially complete.
- **Package B** – Includes the reconfiguration of the existing Park & Ride lot, a new passenger pick-up/drop-off area and upgrades to the existing bus depots with new canopy shelters and lighting.

With this understanding, the following is a summary of the delays to the Project:

Union Pacific Railroad Coordination

As indicated in the first request for extension, the project team engaged Union Pacific Railroad (UPRR) in 2016 to coordinate their portion of the work for the new at-grade pedestrian crossing. Throughout the design development, consistent correspondence with UPRR was maintained, including approval of the UPRR crossing design. However, UPRR went through a significant reduction in staff. Unfamiliar with the project history, the new UPRR team advised Metro that their work would require a complete restart, pushing the schedule well past the public opening date of the station. Despite efforts to expedite, the start of UPRR work was not completed until August 2020.

To account for this delay, a temporary station entrance was required at the existing Northern Grade Crossing to allow for A Line operation to open to the public in November 2019. This unplanned entrance required additional design work, procurement of temporary ramp and stairs installation of temporary rail safety systems, fare collection equipment, and temporary security measures. In addition, the A Line South Entrance required additional safety measures – fencing, temporary signage, addition of egress gates – to

convert the original design into a safe and compliant egress for the A Line Platform.

As a result, while Package B did not originally consist of any scope that involved the A Line, the delay and aforementioned adjustments to both crossings will now add unanticipated scope, time and cost to Package B work to remove all of the temporary measures.

Additional third-party coordination

During the course of final coordination with Caltrans and the Los Angeles County Department of Public Works (County), the County is enforcing stricter requirements on the amount of stormwater allowed to be released into the main storm system. Thus, the County is restricting the amount of stormwater allowed to be released to the main system to less than 20% of what was released with the previous parking lot. Although it is projected that there will be no change to the amount of stormwater released than the previous configuration, the Project is still required to meet this requirement.

After extensive analysis, it was determined that the Project could not meet this reduced amount without a major re-design including adding a new Gross Solid Removal Device (GSRD), cistern, storm drain line, and connection to the County storm drain. The proposed cistern will be located in the County area and the GSRD will be located in the Caltrans right-of-way. Ultimately, this requirement will require additional design work and procurement of a new retention tank, resulting in unanticipated costs and substantial time to the Project.

Despite the conditions noted above, the project team is proud to announce the Grand Opening of Package A&C in November, and we're confident that construction of Package B will be completed by February 2021. Based on the summary above, Metro respectfully requests your concurrence with the proposed extension. Please do not hesitate to contact me should you have any questions or need additional information.

Sincerely,

Kenyon A. Price
Sr. Manager, Transportation Planning

AGENDA ITEM #5

Consider RFP for Zero and Near-Zero Trucking to the Warehouse, Distribution and Intermodal Facilities in Riverside & San Bernardino Counties and RFP for Zero and Near-Zero Cargo Handling Equipment at Warehouse, Distribution and Intermodal Facilities in Riverside & San Bernardino Counties

Request for Proposals

For

Zero & Near-Zero Emission Trucking to Warehouse, Distribution, & Intermodal Facilities in Riverside & San Bernardino Counties

**Financial Assistance to Transition to Zero & Near-Zero
Emission Goods Movement Operations**

P2021-00

November 6, 2020

SECTION 1: INTRODUCTION

The ability to move goods efficiently across the South Coast basin is crucial to the economic vitality of Southern California. In Los Angeles County alone, goods movement dependent industries generate one third of the county's economy and support one third of all employment. Our region is also home to the largest container port complex in the United States. Forty percent (40%) of all containerized goods imported into the United States enter through the Ports of Long Beach and Los Angeles, known as the San Pedro Bay Ports.

However, the movement of goods does not stop at the maritime ports. Approximately 70% of the containerized cargo that moves through the San Pedro Bay Ports travels by heavy-duty diesel trucks through the South Coast basin, where 40% of it ends up at a vast network of warehouses, distribution centers, and logistics facilities located in Riverside and San Bernardino counties.

Each warehouse and logistics facility is – in and of itself – a small scale port. There are over 400 of these facilities currently within Riverside and San Bernardino counties (Inland Empire). Goods are delivered, trans-loaded, and depart each facility primarily by heavy-duty diesel trucks. While individually smaller in scale, when viewed collectively the hundreds of warehouses, distribution centers, and logistics facilities in the Inland Empire generate air pollutant emissions that endanger the health of the communities they are located in and adversely impact the entire South Coast region.

SECTION 2: PURPOSE OF THIS REQUEST FOR PROPOSALS

To reduce air pollutant emissions generated by heavy-duty diesel trucks that transport goods to the "Inland Ports", the MSRC Clean Transportation Funding™ Program is seeking to partner with trucking fleet owners to begin their transition to zero or near-zero emission goods movement.

Specifically, this Request for Proposals (RFP) seeks proposals from qualified businesses who frequently transport containerized or bulk goods to warehouses, distribution centers, logistics facilities, or intermodal freight transportation hubs located in Riverside or San Bernardino counties. MSRC Clean Transportation Funding™ is available to partially offset the cost of acquiring zero or near-zero emission heavy-duty trucks and associated refueling infrastructure and/or electric vehicle supply equipment (EVSE), as applicable.

A total of \$14 million in MSRC funding is available under this RFP. The following Sections outline the eligibility requirements, conditions, and other relevant information to assist fleets in developing a proposal.

SECTION 3: PROGRAM ELIGIBILITY REQUIREMENTS

3.1 Eligible Respondents to this RFP – the MSRC is seeking proposals from entities who, as a part of their business enterprise, frequently transport goods to warehouse and distribution facilities located in the Inland Empire using heavy-duty Class 7 or 8 trucks.

Eligible entities include licensed motor carriers, third party logistics companies, freight forwarding companies, truck leasing companies, and private businesses who own or lease trucks to transport goods to freight facilities located in San Bernardino and Riverside counties.

3.2 Minimum Operation within the South Coast AQMD Jurisdiction & Inland Empire – heavy-duty trucks that will be used in conjunction with a project submitted under this RFP must, at a minimum:

- Accrue at least 85 percent of their annual mileage within the geographical boundaries of the South Coast Air Quality Management District; and
- Demonstrate that at least 70 percent of annual trips include destinations within Riverside and/or San Bernardino County.

3.3 Eligible Project Elements – This RFP seeks proposals for the acquisition of heavy-duty zero or near-zero emission trucks and supporting infrastructure primarily used to transport goods within the South Coast AQMD region with destinations in the Inland Empire. The following are project elements eligible to receive MSRC Clean Transportation Funding™:

- **Acquisition of Zero-Emission or Near-Zero Emission (Z/NZE) Heavy-Duty On-Road Trucks**
 - Purchase or lease and deploy into revenue service new on-road heavy-duty Class 7 or Class 8 trucks (gross vehicle weight rating greater than 26,000 pounds) that are zero-emission (e.g., battery or fuel cell) or equipped with a “near-zero” emission natural gas engine¹. Under this RFP, “zero emission” is defined as having no tailpipe emissions and includes battery electric and hydrogen fuel cell technologies. “Near-zero” includes engines certified to the CARB Optional Low-NO_x standard of 0.02 grams per brake horsepower-hour or cleaner.

¹ “Near-Zero” engines compatible with Class 7 and Class 8 heavy-duty trucks currently include natural gas engines certified by the California Air Resources Board at the Optional Low-NO_x Certification Standard of 0.02 g/bhp-hr.

- **Electrification to Support Zero Emission Trucks**
 - Design and install Electric Vehicle Support Equipment (EVSE, i.e., chargers) to allow onsite recharging of battery electric on-road trucks. For the purpose of this RFP, “EVSE” includes vehicle chargers, solar canopies, charge management system hardware, and energy storage system hardware.
- **Development of Onsite Renewable Natural Gas Refueling Infrastructure**
 - Design and install natural gas refueling infrastructure to allow onsite fueling of near-zero emission natural gas on-road heavy-duty trucks.
- **Development of Onsite Hydrogen Refueling infrastructure**
 - Design and install hydrogen refueling infrastructure to allow fueling of hydrogen fuel cell heavy-duty on-road trucks.

IMPORTANT! Transportation companies seeking MSRC funding to buy down the capital cost of leased vehicles must partner with the truck leasing company and submit a joint proposal. Any Contract resulting from an MSRC funding award will require the Truck Leasing Company to act as the prime contractor and contract signatory.

IMPORTANT! A proposal may request funding for Infrastructure-Only, either EVSE, renewable natural gas refueling equipment, or hydrogen refueling equipment. However, the proposer must demonstrate that qualifying on-road vehicles intended to utilize the MSRC-funded infrastructure have or are in the process of being acquired. Documentation will be required to confirm vehicle acquisition has been initiated prior to execution by the MSRC of an Infrastructure-Only funding award.

SECTION 4: FUNDING AVAILABILITY

The total amount of MSRC Clean Transportation Funding™ allocated for this Program is \$14M². Funding will be awarded on a competitive basis in accordance with the proposal evaluation and scoring procedures outlined in Section 9 of this RFP.

² MSRC Clean Transportation Funding™ is derived from motor vehicle registration fees collected by the California Department of Motor Vehicles (DMV) in accordance with the California Health and Safety Code. The availability of MSRC Clean Transportation Funding™ is contingent upon the timely receipt of funds from the DMV. Neither the MSRC nor South Coast AQMD can guarantee the collection or remittance of registration fees by the DMV.

The MSRC reserves the right to increase the amount of total funding available. Additionally, if total funding requests are less than the amount currently allocated, or if proposals are deemed non-meritorious, the MSRC reserves the right to reduce the total funding available and reallocate funds to other Work Program categories.

4.1 Maximum Funding Award – The maximum funding award to any entity under this RFP shall not exceed 50% of the total available funding, or a current maximum award amount of \$7M. This maximum funding restriction can be waived by the MSRC in the event the MSRC does not receive meritorious proposals from other bidders or if the MSRC allocates additional funds to the program.

4.2 Funding Restrictions – The following funding restrictions have been imposed by the MSRC:

- MSRC funds must be applied towards the capital purchase/lease and installation costs of qualifying zero-near-zero heavy-duty vehicles and infrastructure.
- MSRC funds cannot be used to purchase real property, fuel, including electricity, or used to offset vehicle operations or maintenance costs.
- MSRC funds cannot be used to offset recurring fees associated with the operation and maintenance of EVSE charge management systems.

4.3 Earliest Date for an MSRC-Funded Project to Commence – The release date of this RFP, November 6, 2020, is the earliest date work on a project can commence and be potentially eligible for MSRC funding. Any expenditures made in anticipation of an award and prior to execution of a contract are solely at the proposer's risk. If no contract is executed, neither the MSRC nor South Coast AQMD is liable for payment of any funds expended in anticipation of a contract. Please note that in the event a contract is executed, reimbursement for any costs incurred by the proposer in anticipation of the contract is at the discretion of the MSRC and South Coast AQMD.

4.4 Additional Conditions on MSRC Funding

- MSRC funds will be distributed on a reimbursement basis only upon completion of approved project tasks and submission of all required reports and invoices;
- MSRC funds are not intended to fund staff salaries or administrative costs;
- Funding provided under this RFP opportunity cannot be comingled with funds from any other MSRC Program, i.e., no "double dipping";
- Finally, in accordance with state law, all projects awarded MSRC Clean Transportation Funding™ are subject to audit. The provisions of the audit are discussed in the Sample

Contract, attached to this RFP. It is highly recommended that bidders employ Generally Accepted Accounting Principles (GAAP) when administering their MSRC co-funded project.

SECTION 5 - SCHEDULE OF EVENTS

This RFP will be administered in accordance with the timeline shown below in Table 6-1. Proposals may be submitted anytime during the period commencing November 6, 2020 and ending January 15, 2021.

Table 6-1 - Key Inland Port Program Dates

Program Event	Date
RFP Release	November 6, 2020
Online Bidders' Conference	November 18, 2020
Latest Date/Time to Submit a Proposal	January 15, 2021 @ 11:59 pm

IMPORTANT! Proposals must be submitted to the MSRC website no later than 11:59 pm on January 15, 2021. Late proposals cannot be accepted for any reason. Please refer to Section 7, below, for instructions on how to submit a proposal.

5.1 Online Bidders' Conference – this Zoom Webinar will further explain the goals and requirements of this RFP and provide an opportunity for participants to ask questions. Participation in the online bidders' conference is voluntary. **The webinar will take place on Wednesday, November 18th at 10:00 am and can be accessed using the following link:**

When: Wednesday, November 18, 2020 10:00 AM-11:00 AM (UTC-08:00) Pacific Time (US & Canada).

Where: <https://scaqmd.zoom.us/j/93533914127>

Join from a PC, Mac, iPad, iPhone or Android device:

International numbers available: <https://scaqmd.zoom.us/j/93533914127>

In addition, proposers seeking clarification to this RFP can contact the MSRC staff at any time – see Section 8, below, for a MSRC staff member contact information.

SECTION 6 PROPOSAL PREPARATION INSTRUCTIONS

The following instructions are intended to assist bidders in preparing a proposal for funding consideration under this RFP. Proposals should be concisely written, but include all necessary technical and financial detail requested in the following Subsections.

IMPORTANT! The MSRC seeks proposals that offer a “Complete Project” – meaning that the entire project scope - zero or near-zero vehicles to be demonstrated, essential infrastructure, coordination with project partners, including utilities, and necessary co-funding - are all considered and discussed within the proposal narrative.

Questions regarding proposal preparation and submittal should be directed to the appropriate MSRC staff representative listed in Section 8 of this RFP.

6.1 Cover Letter – A cover letter should accompany the proposal, referencing RFP number **P2021-X**, specify contact person(s) for technical and contractual matters, and be signed by the person(s) authorized to contractually bind the bidding entity.

6.2 Project Partner Letters of Support, MOA, or MOU – The proposal must include a letter of support, Memorandum of Agreement (MOA), or Memorandum of Understanding (MOU) from all participating entities of a joint proposal acknowledging their participation in the proposed project.

6.3 Proposal Team Contact Information – Proposers may use the template provided (Attachment A to this RFP) or provide the requested information in another format.

6.4 Project Technical Description – The proposal should include a concise yet thorough description of the overall project scope. While the format is left to the discretion of the proposer, the technical description should include, to the extent currently known and applicable, the following key elements:

6.4.1 Zero & Near-Zero Emission Heavy-Duty Truck Project Component

- Host Fleet – the name and characteristics of the fleet that will be operating the vehicles associated with the proposed project, including the proposed vehicle and infrastructure domicile address. Links to existing websites that describe the host fleet may be included to augment information provided in the proposal;

- Zero/Near-Zero Emission Technical Specifications – to the extent available, include information on the vehicles associated with the proposed project. This may include, but is not limited to, technical specifications, manufacturer publications, etc. Links to existing websites that describe the vehicle characteristics may be included to augment the proposal;
- Vehicle Duty Cycle – the zero or near-zero vehicles associated with the project, provide information as it relates to average daily or weekly miles traveled per vehicle, anticipated route or destination location(s), total average annual miles per vehicle, and the percentage of truck trips that service freight facilities in the Inland Empire. To the extent feasible, identify specific Inland Empire facilities that the trucks are expected to frequent.

6.4.2 Infrastructure Components

Provide an overview and technical description of the infrastructure elements associated with the proposed project, including but not limited to the following:

- Technical Description & Specifications for the Proposed Infrastructure – This element of the proposal should include, to the extent available, technical specifications, equipment lists, preliminary designs, site plans, etc., as available;
- Infrastructure Accessibility – Discuss the near-term and future plans for infrastructure accessibility, i.e., whether the infrastructure will be private access only or offer limited access to other fleets;
- Utility Coordination – As applicable to the proposed project, discuss the status of coordination with the cognizant California Public Utility or municipal utility(s) that will have a role in the siting, utility service upgrades, and construction of proposed infrastructure.

6.5 Project Cost & Funding Sources – The MSRC strongly encourages the formation of partnerships and the leveraging of multiple funding sources to increase the scope of Inland Port projects and improve their economic feasibility. The proposal should discuss in detail the total project cost, funding requested from the MSRC, and the amounts and sources of additional project co-funding.

Specifically, proposers should specify the sources of all funding applied to the project, including contributions from the project partners, or funding either sought or in hand from local, state, and federal agencies, including but not limited to the South Coast AQMD (non-MSRC), Air Resources Board, Energy Commission, US Department of Energy, etc.

In addition, for projects that propose EVSE, proposers should discuss funding available through public or municipal electric utilities. For example, under the Southern California Edison Charge Ready Transport Program, warehouse, distribution centers, and logistics facilities located within

the SCE service territory may be able to take advantage of “make ready” financial incentives for the installation of electric vehicle charging equipment to support heavy-duty battery electric trucks.

See <https://www.sce.com/business/electric-cars/charge-ready-transport> for more information regarding this program.

If utility incentives are being sought, the proposal should address the coordination status with the utility, i.e., whether an application for incentive funding has been submitted, is in preparation, or if discussions between the proposer team and utility have been initiated.

6.6 Project Implementation Schedule – The proposal should discuss key project milestones and their expected implementation dates. From a Project Readiness standpoint, the MSRC would prefer that projects be initially deployed within 36 months from the date of contract execution and authority to proceed, with full project deployment no later than 48 months from contract execution. The MSRC does, however, have discretion in this regard; thus, it is requested that proposers provide accurate information regarding the project’s implementation schedule.

6.7 Project Scalability – Limited availability of MSRC funding could result in the need to descope or scale-back a proposed project, including but not limited to reducing the number of vehicles funded, etc. In this event, the resulting award would be lower than the proposer’s requested amount. The MSRC asks that proposers address this potential contingency in their proposal and provide the following information:

- Is the proposer amenable to project scaling? If Yes,
- What is the minimum project scope and cost offered by the proposer, with the understanding that anything less than this minimum would no longer represent a viable project?

IMPORTANT! Proposers should review the Evaluation & Scoring Criteria discussed below in Section 9 of this RFP and ensure their proposal provides all information necessary to maximize the proposal’s scoring potential.

6.7 Certifications – All proposers must complete and submit the following forms, located in Section 8, as an element of their proposal:

- a) Internal Revenue Service Form W-9 – Request for Taxpayer Identification Number and Certification and California Form 590 – Withholding Exemption Certificate. If you are selected for an award, you cannot be established as a vendor without this information.

- b) Disadvantaged Business Certification - The South Coast AQMD needs this information for their vendor database. It will not be considered in proposal evaluation or the determination of any MSRC funding award.
- c) Certificates of Insurance - Bidders are required to provide a statement that upon notification of award, a certificate of insurance naming the South Coast AQMD as an additional insured will be provided within forty-five (45) days. The certificate of Insurance does not need to be submitted as an element of the proposal.

IMPORTANT! In the event a business enterprise is self-insured, a statement to that effect must be included in proposal.

SECTION 7 PROPOSAL SUBMITAL INSTRUCTIONS

Proposals must be submitted electronically in PDF format using the MSRC Website. We believe this benefits the proposer, the MSRC staff, and the environment. A tutorial has been developed to guide proposers step by step through the electronic proposal submittal process. This tutorial is available on the MSRC Website at www.cleantransportationfunding.org. Look for the tutorial on the “**Proposal Process – Proposal Upload Tutorial**” page:

<http://www.cleantransportationfunding.org/sites/default/files/downloads/Guide%20to%20Using%20the%20Website.pdf>

7.1 Proprietary and Trade Secret Information – to the extent feasible, proposals should avoid including information or data that is considered confidential, company proprietary, or a trade secret. If a proposal does include information that the proposer does not want publicly disclosed, that information must be clearly marked and identified as “Proprietary – Do Not Disclose”.

7.2 Addenda - The MSRC reserves the right to issue corrections, supplemental information, or revisions to this RFP during the proposal preparation period of November 6, 2020 to January 15, 2021.

7.3 Grounds for Rejection – A proposal will be rejected and not undergo further evaluation and scoring if:

- It is received after the proposal submittal deadline, January 15, 2021 at 11:59 pm;
- It is not prepared in the format described; or
- It is not signed by an individual authorized to represent the proposing entity.

7.4 Modification or Withdrawal - Once submitted, proposals cannot be altered without the consent of MSRC. All proposals shall constitute firm offers and may not be withdrawn for a

period of ninety (90) days following the last day to accept proposals. All proposals become the property of the MSRC.

SECTION 8 IF YOU NEED HELP...

This RFP can be obtained by accessing the MSRC web site at www.cleantransportationfunding.org. MSRC staff members are available to answer questions during the proposal preparation period. In order to help expedite assistance, please direct your inquiries to the applicable staff person, as follows:

- For **General and Administrative Assistance**, please contact:

Cynthia Ravenstein

MSRC Program Administrator

Phone: 909-396-3269

Fax: 909-396-3682

E-mail: cynthia@cleantransportationfunding.org

- For **Technical Assistance**, please contact:

Ray Gorski

MSRC Technical Advisor

Phone: 909-396-2479

Fax: 909-396-3682

E-mail: ray@cleantransportationfunding.org

- For **Contractual Assistance**, please contact:

Dean Hughbanks

AQMD Procurement Manager

Phone: 909-396-2808

E-mail: dhughbanks@aqmd.gov

SECTION 9 - PROPOSAL EVALUATION & SCORING

Proposals received prior to the submittal deadline will be forwarded to an Evaluation Subcommittee comprised of members of the MSRC Technical Advisory Committee (MSRC-TAC). Proposals will be evaluated and scored against (3) evaluation criteria: Cost-Effectiveness, Project Readiness, and the percentage of trips that serve freight facilities in the Inland Empire. The total points available is 100, with each evaluation criterion weighted as follows.

1. **Criteria Air Pollutant Emissions Reduction Cost-Effectiveness** (40 points maximum score) – Reductions in criteria air pollutant emissions in the South Coast AQMD Region, and particularly the Inland Empire, are the primary motivation for releasing this Request for Proposals. Proposals will be evaluated based on the quantifiable reduction in reactive organic gases, oxides of nitrogen (NO_x), and diesel particulate matter exhaust pollution as compared to the current California Air Resources Board NO_x threshold of 0.2 grams per brake horsepower-hour (g/bhp-hr). Cost-effectiveness will be computed as the ratio of the quantified air pollutant reductions per MSRC funding requested. The quantification methodologies included in the Air Resources Board's 2017 Carl Moyer Memorial Air Quality Standards Attainment Program Guidelines will be used to the extent applicable to ensure consistency in proposal evaluation.

As discussed in Section 3.3, proposals seeking MSRC funds for infrastructure-only are eligible but must include a co-funded zero/near-zero vehicle acquisition component. Cost-effectiveness will be calculated based on the co-funded zero/near-zero vehicle component of the overall project.

IMPORTANT! To facilitate proposal evaluation with respect to air pollutant cost-effectiveness, ensure that all requested information and documentation relating to the vehicles duty cycle and mileage accrual is provided.

2. **Project Readiness** (40 points maximum) – This evaluation criterion assesses a proposed project's perceived ability to adhere to the proposed schedule and budget. Factors that will impact a project's successful implementation within budget and schedule projections include:
 - Zero/Near-Zero Vehicle Acquisition:
 - Have the zero/near-zero vehicles proposed for deployment under this project been specified?
 - Has the sales or leasing agent been contacted, and are negotiations underway?
 - Is the proposer ready to execute a vehicle purchase order upon MSRC funding award?
 - Supporting Infrastructure Development:
 - Has an equipment specification for supporting EVSE or gaseous fuel infrastructure been prepared?
 - What is the stage of site planning, i.e., preliminary design, final design, etc.?
 - Has coordination begun with the cognizant utilities?
 - Project Funding:

- Has the necessary project co-funding been identified?
- Is co-funding in hand or applied for?
- Will final status of other pending funding awards be known within the first quarter of calendar year 2021?

IMPORTANT! Proposers should address the Project Readiness criteria listed above within the narrative of their Project Description. The MSRC is less concerned with project implementation immediacy as compared to understanding the true status of a project's state of readiness. Thus, it is requested that proposers provide accurate information regarding the project's state of readiness in a forthcoming manner.

3. **Percentage of Truck Trips that Serve Facilities Located in the Inland Empire** (20 points maximum) – The MSRC seeks to reduce air pollutant emissions from heavy-duty diesel trucks that transport goods within the South Coast Air Basin with destinations to the Inland Empire. This evaluation criterion recognizes fleets who commit to utilize the zero or near-zero vehicles associated with this project on a frequent basis to serve destinations within the Inland Empire. The following rubric will be used to assign points:

<i>Estimated Percentage of Project Vehicle Trips that Serve Inland Empire Goods Movement Facilities</i>	<i>Point Allocation</i>
95% or Greater	20
90% - 94%	15
80% - 89%	10
75% - 80%	5
74% or Less	0

IMPORTANT! Proposers should ensure their Project Description addresses the intended routes for the project vehicles and provides sufficient data to estimate the percentage of overall trips that will serve goods movement facilities within Riverside and San Bernardino counties.

Request for Proposals

For

Zero & Near-Zero Emission Cargo Handling Equipment & Infrastructure at Warehouse, Distribution, & Intermodal Facilities in Riverside & San Bernardino Counties

**Financial Assistance to Transition to Zero & Near-Zero
Emission Goods Movement Operations**

P2021-00

November 6, 2020

**Clean Transportation Funding™ from the
Mobile Source Air Pollution Reduction Review Committee (MSRC)**

SECTION 1: INTRODUCTION

Riverside and San Bernardino counties are home to a vast network of warehouses, distribution centers, and logistics facilities. Over 400 of these facilities are currently in operation, where shipping containers arriving through the San Pedro Bay Ports are delivered, de-aggregated, and transloaded for destinations across the United States. Containerized cargo is moved using heavy-duty diesel cargo handling equipment such as yard tractors and heavy-duty container lifting equipment – the same equipment utilized at the maritime ports. While individually smaller in scale, when viewed collectively the hundreds of warehouses, distribution centers, and logistics facilities in the Inland Empire generate air pollutant emissions that endanger the health of the communities they are located in and adversely impact the entire South Coast region. It is for this reason that the local and State air pollution regulatory agencies are promulgating new rules and regulations to reduce air pollution generated by goods movement activities at these “Inland Ports”.

To reduce air pollutant emissions generated by warehouse, distribution, and logistics center operations within the South Coast AQMD portions¹ of Riverside and San Bernardino counties, the MSRC Clean Transportation Funding™ Program is seeking to partner with these facilities to begin the transition to zero or near-zero emission onsite goods movement.

Partnering with the MSRC Clean Transportation Funding™ Program offers the potential for owners and operators of eligible Inland Empire freight facilities to receive incentives for the early implementation of key air pollution reduction strategies and potentially go “above and beyond” future air quality obligations on the horizon from State and local air quality regulators. This also affords an opportunity for warehouses, distribution centers, and logistics facilities to implement “good neighbor” policies and practices to reduce air pollution exposure to adjacent residences, your community, and the region as a whole.

SECTION 2: PURPOSE OF THIS REQUEST FOR PROPOSALS

To reduce air pollutant emissions generated at Inland Empire freight facilities, the MSRC Clean Transportation Funding™ Program is seeking to partner with owners and/or operators of warehouses, distribution centers, logistics facilities, and intermodal hubs located in Riverside or San Bernardino county to implement air pollution reduction strategies that reduce emissions generated during shipping container movement and bulk material processing.

¹ See <https://www.aqmd.gov/nav/about/jurisdiction> for a listing of zip codes that fall within the South Coast AQMD jurisdiction.

MSRC Clean Transportation Funding™ is available to partially offset the cost of acquiring zero or near-zero emission cargo handling equipment and supporting infrastructure.

A total of \$6 million in MSRC funding is available under this RFP. The following Sections outline the eligibility requirements, conditions, and other relevant information to assist Inland Empire freight facilities in developing a proposal.

SECTION 3: PROGRAM ELIGIBILITY REQUIREMENTS

3.1 Eligible Respondents to this RFP – Eligible bidders include owners or lessees of freight facilities located in San Bernardino and Riverside counties. For the purposes of this RFP, freight facilities include warehouse, distribution, logistics, and intermodal transportation hubs that receive containerized goods or bulk materials.

3.3 Eligible Project Elements – This RFP seeks proposals for the acquisition of heavy-duty zero or near-zero emission cargo handling equipment and supporting infrastructure used to move shipping containers or bulk material onsite at freight facilities in the Inland Empire. The following vehicles and supporting infrastructure are eligible to receive MSRC Clean Transportation Funding™:

- **Off-Road Zero or Near-Zero Emission Cargo Handling Equipment**
 - Purchase and deploy into revenue service off-road heavy-duty cargo handling equipment that are zero-emission or equipped with a near-zero emission engine. This would include, but is not necessarily limited to, zero and near-zero emission yard tractors (hostlers), top picks, side loaders, and other types of equipment typically used to reposition shipping containers or bulk commodities at an Inland Empire freight facility. Under this RFP, “zero emission” is defined as having no tailpipe emissions and includes battery electric and hydrogen fuel cell technologies. “Near-zero” includes engines certified to the CARB Optional Low-NO_x standard of 0.02 grams per brake horsepower-hour.
- **Facility Electrification to Support Zero Emission Off-Road Cargo Handling Equipment**
 - Design, perform site modifications, and install Electric Vehicle Support Equipment (EVSE) to allow onsite recharging of battery electric on-road trucks or off-road cargo handling equipment. For the purpose of this RFP, “EVSE” includes vehicle chargers, solar canopies used in conjunction with EV charging, charge management system hardware, and energy storage system hardware.

- **Onsite Renewable Natural Gas Refueling Infrastructure**
 - Design, perform site modifications, and install natural gas refueling infrastructure to allow onsite fueling of near-zero emission natural gas off-road cargo handling equipment or on-road natural gas trucks that dray to the freight facility. The use of renewable natural gas is required.
- **Onsite Hydrogen Refueling infrastructure**
 - Design, perform site modifications, and install hydrogen refueling infrastructure to allow fueling of hydrogen fuel cell off-road cargo handling equipment or on-road fuel cell trucks that dray to the freight facility.

IMPORTANT! A proposal may request funding for Infrastructure-Only, either EVSE, renewable natural gas, or hydrogen refueling equipment. However, the proposer must demonstrate that vehicles intended to utilize the MSRC-funded infrastructure have been or are in the process of being acquired, or identify a specific fleet that will commit to utilize the MSRC-funded infrastructure once commissioned.

Documentation will be required to confirm that: a) vehicle acquisition has been initiated; or b) a refueling agreement is in place with an identified fleet prior to contract execution by the MSRC of an Infrastructure-Only funding award.

IMPORTANT! Vehicles and infrastructure receiving MSRC funds are required to be retained by the awardee for a minimum of five (5) years from the date MSRC co-funded vehicles or infrastructure enters revenue service. Please refer to the Sample Contract, attached to this RFP, for specific information regarding vehicle and infrastructure retention requirements.

SECTION 4: FUNDING AVAILABILITY

The total amount of MSRC Clean Transportation Funding™ allocated for this Program is \$6M². Funding will be awarded on a competitive basis in accordance with the proposal evaluation and scoring procedures outlined in Section 9 of this RFP.

² MSRC Clean Transportation Funding™ is derived from motor vehicle registration fees collected by the California Department of Motor Vehicles (DMV) in accordance with the California Health and Safety Code. The availability of MSRC Clean Transportation Funding™ is contingent upon the timely receipt of funds from the DMV. Neither the MSRC nor South Coast AQMD can guarantee the collection or remittance of registration fees by the DMV.

The MSRC reserves the right to increase the amount of total funding available. Additionally, if total funding requests are less than the amount currently allocated, or if proposals are deemed non-meritorious, the MSRC reserves the right to reduce the total funding available and reallocate funds to other Work Program categories.

4.1 Maximum Funding Award – The maximum funding award to any entity under this RFP shall not exceed 50% of the total available funding, or a current maximum award amount of \$3M. This maximum funding restriction can be waived by the MSRC in the event the MSRC does not receive meritorious proposals from other bidders or if the MSRC allocates additional funds to the program.

4.2 Funding Restrictions – The following funding restrictions have been imposed by the MSRC:

- MSRC funds must be applied towards the capital purchase/lease and installation costs of qualifying zero-near/zero emission heavy-duty vehicles and infrastructure.
- MSRC funds cannot be used to purchase real property, fuel, including electricity, or used to offset vehicle operations or maintenance costs.
- MSRC funds cannot be used to offset recurring fees associated with the operation and maintenance of EVSE charge management systems.

4.3 Earliest Date for an MSRC-Funded Project to Commence – The release date of this RFP, November 6, 2020, is the earliest date work on a project can commence and be potentially eligible for MSRC funding. Any expenditures made in anticipation of an award and prior to execution of a contract are solely at the proposer's risk. If no contract is executed, neither the MSRC nor South Coast AQMD is liable for payment of any funds expended in anticipation of a contract. Please note that in the event a contract is executed, reimbursement for any costs incurred by the proposer in anticipation of the contract is at the discretion of the MSRC and South Coast AQMD.

4.4 Additional Conditions on MSRC Funding

- MSRC funds will be distributed on a reimbursement basis only upon completion of approved project tasks and submission of all required reports and invoices;
- MSRC funds are not intended to fund staff salaries or administrative costs;
- Funding provided under this RFP opportunity cannot be comingled with funds from any other MSRC Program, i.e., no "double dipping";
- Finally, in accordance with state law, all projects awarded MSRC Clean Transportation Funding™ are subject to audit. The provisions of the audit are discussed in the Sample

Contract, attached to this RFP. It is highly recommended that bidders employ Generally Accepted Accounting Principles (GAAP) when administering their MSRC co-funded project.

SECTION 5 - SCHEDULE OF EVENTS

This RFP will be administered in accordance with the timeline shown below in Table 6-1. Proposals may be submitted anytime during the period commencing November 6, 2020 and ending January 15, 2021.

Table 6-1 - Key Inland Port Program Dates

Program Event	Date
RFP Release	November 6, 2020
Online Bidders' Conference	November 18, 2020
Latest Date/Time to Submit a Proposal	January 15, 2021 @ 11:59 pm

IMPORTANT! Proposals must be submitted to the MSRC website no later than 11:59 pm on January 15, 2021. Late proposals cannot be accepted for any reason. Please refer to Section 7, below, for instructions on how to submit a proposal.

5.1 Online Bidders' Conference – this Zoom Webinar will further explain the goals and requirements of this RFP and provide an opportunity for participants to ask questions. Participation in the online bidders' conference is voluntary. **The webinar will take place on Wednesday, November 18th at 11:00 am and can be accessed using the following link:**

When: Wednesday, November 18, 2020 11:00 AM-12:00 PM (UTC-08:00) Pacific Time (US & Canada).

International numbers available: <https://scaqmd.zoom.us/j/a014PQj8B>

In addition, proposers seeking clarification to this RFP can contact the MSRC staff at any time – see Section 8, below, for MSRC staff contact information.

SECTION 6 PROPOSAL PREPARATION INSTRUCTIONS

The following instructions are intended to assist bidders in preparing a proposal for funding consideration under this RFP. Proposals should be concisely written, but include all necessary technical and financial detail requested in the following Subsections.

IMPORTANT! The MSRC seeks proposals that offer a “Complete Project” – meaning that the entire project scope - zero or near-zero vehicles to be demonstrated, essential infrastructure, coordination with project partners, including utilities, and necessary co-funding - are all considered and discussed within the proposal narrative.

Questions regarding proposal preparation and submittal should be directed to the appropriate MSRC staff representative listed in Section 8 of this RFP.

6.1 Cover Letter – A cover letter should accompany the proposal, referencing RFP number **P2021-X**, specifying the contact person(s) for technical and contractual matters, and be signed by the person(s) authorized to contractually bind the bidding entity.

6.2 Project Partner Letters of Support, MOA, or MOU – The proposal must include a letter of support, Memorandum of Agreement (MOA), or Memorandum of Understanding (MOU), as applicable, from all participating entities of a joint proposal acknowledging their participation in the proposed project.

6.3 Proposal Team Contact Information – Proposers may use the template provided (Attachment A to this RFP) or provide the requested information in another format.

6.4 Project Technical Description – The proposal should include a concise yet thorough description of the overall project scope. While the format is left to the discretion of the proposer, the technical description should include, to the extent currently known and applicable, the following key elements:

6.4.1 Zero & Near-Zero Emission Cargo Handling Equipment (CHE)

- Freight Facility – the name, location, and description of the Inland Empire freight facility that will purchase and operate the CHE. Links to existing websites that describe the freight facility may be included to augment information provided in the proposal;
- Zero/Near-Zero Emission CHE Technical Specifications – provide technical information on the CHE. This may include, but is not limited to, technical specifications, manufacturer publications, etc. Links to existing websites that describe the vehicle specifications may be included to augment the proposal;
- Vehicle Duty Cycle – For each piece of zero or near-zero CHE, provide information as it relates to the anticipated average daily or weekly hours of operation, anticipated operations profile, and total average annual hours of operation per CHE. Please address any unique duty-cycle requirements specific to the freight facility in the technical discussion.

6.4.2 Infrastructure Components

Provide an overview and technical description of the infrastructure elements associated with the proposed project, including but not limited to the following:

- Technical Description & Specifications for the Proposed Infrastructure – This element of the proposal should include, to the extent available, technical specifications, equipment lists, preliminary designs, site plans, etc., as available;
- Utility Coordination – As applicable to the proposed project, discuss the status of coordination with the cognizant California Public Utility or municipal utility(s) that will have a role in the siting, utility service upgrades, and construction of proposed infrastructure.

6.5 Project Cost & Funding Sources – The MSRC strongly encourages the formation of partnerships and the leveraging of multiple funding sources to increase the scope of Inland Port projects and improve their economic feasibility. The proposal should discuss in detail the total project cost, funding requested from the MSRC, and the amounts and sources of additional project co-funding.

Specifically, proposers should specify the sources of all funding applied to the project, including contributions from the project partners, or funding either sought or in hand from local, state, and federal agencies, including but not limited to the South Coast AQMD (non-MSRC), Air Resources Board, Energy Commission, US Department of Energy, etc.

In addition, for projects that propose EVSE, proposers should discuss funding available through public or municipal electric utilities. For example, under the Southern California Edison Charge Ready Transport Program, warehouse, distribution centers, and logistics facilities located within the SCE service territory may be able to take advantage of “make ready” financial incentives for

the installation of electric vehicle charging equipment to support heavy-duty battery electric trucks.

See <https://www.sce.com/business/electric-cars/charge-ready-transport> for more information regarding this program.

If utility incentives are being sought, the proposal should address the coordination status with the utility, i.e., whether and application for incentive funding has been submitted, is in preparation, or if discussions between the proposer team and utility have been initiated.

6.6 Project Implementation Schedule – The proposal should identify key project milestones and their expected implementation dates. From a Project Readiness standpoint, the MSRC would prefer that projects be initially deployed within 36 months from the date of contract execution and authority to proceed, with full project deployment no later than 48 months from contract execution. The MSRC does, however, have discretion in the regard; thus, it is requested that proposers provide accurate information regarding the project's implementation schedule.

6.7 Project Scalability – Limited availability of MSRC funding could result in the need to descope or scale-back a proposed project, including but not limited to reducing the number of CHE, etc. In this event, the resulting award would be lower than the proposer's requested amount. The MSRC asks that proposers address this potential contingency in their proposal and provide the following information:

- Is the proposer amenable to project scaling? If Yes,
- What is the minimum project scope and cost offered by the proposer, with the understanding that anything less than this minimum would no longer represent a viable project?

IMPORTANT! Proposers should review the Evaluation & Scoring Criteria discussed below in Section 9 of this RFP and ensure their proposal provides all information necessary to maximize the proposal's scoring potential.

6.7 Certifications – All proposers must complete and submit the following forms, located in Section 8, as an element of their proposal:

- a) Internal Revenue Service Form W-9 – Request for Taxpayer Identification Number and Certification and California Form 590 – Withholding Exemption Certificate. If you are selected for an award, you cannot be established as a vendor without this information.

- b) Disadvantaged Business Certification - The South Coast AQMD needs this information for their vendor database. It will not be considered in proposal evaluation or the determination of any MSRC funding award.
- c) Certificates of Insurance - Bidders are required to provide a statement that upon notification of award, a certificate of insurance naming the South Coast AQMD as an additional insured will be provided within forty-five (45) days. The certificate of Insurance does not need to be submitted as an element of the proposal.

IMPORTANT! In the event a business enterprise is self-insured, a statement to that effect must be included in proposal.

SECTION 7 PROPOSAL SUBMITAL INSTRUCTIONS

Proposals must be submitted electronically in PDF format using the MSRC Website. We believe this benefits the proposer, the MSRC staff, and the environment. A tutorial has been developed to guide proposers step by step through the electronic proposal submittal process. This tutorial is available on the MSRC Website at www.cleantransportationfunding.org. Look for the tutorial on the “**Proposal Process – Proposal Upload Tutorial**” page:

<http://www.cleantransportationfunding.org/sites/default/files/downloads/Guide%20to%20Using%20the%20Website.pdf>

7.1 Proprietary and Trade Secret Information – to the extent feasible, proposals should avoid including information or data that is considered confidential, company proprietary, or a trade secret. If a proposal does include information that the proposer does not want publicly disclosed, that information must be clearly marked and identified as “Proprietary – Do Not Disclose”.

7.2 Addenda - The MSRC reserves the right to issue corrections, supplemental information, or revisions to this RFP during the proposal preparation period of November 6, 2020 to January 15, 2021.

7.3 Grounds for Rejection – A proposal will be rejected and not undergo further evaluation and scoring if:

- It is received after the proposal submittal deadline, January 15, 2021 at 11:59 pm;
- It is not prepared in the format described; or
- It is not signed by an individual authorized to represent the proposing entity.

7.4 Modification or Withdrawal - Once submitted, proposals cannot be altered without the consent of MSRC. All proposals shall constitute firm offers and may not be withdrawn for a period of ninety (90) days following the last day to accept proposals. All proposals become the property of the MSRC.

SECTION 8 IF YOU NEED HELP...

This RFP can be obtained by accessing the MSRC web site at www.cleantransportationfunding.org. MSRC staff members are available to answer questions during the proposal preparation period. In order to help expedite assistance, please direct your inquiries to the applicable staff person, as follows:

- For **General and Administrative Assistance**, please contact:

Cynthia Ravenstein
MSRC Program Administrator
Phone: 909-396-3269
Fax: 909-396-3682
E-mail: cynthia@cleantransportationfunding.org

- For **Technical Assistance**, please contact:

Ray Gorski
MSRC Technical Advisor
Phone: 909-396-2479
Fax: 909-396-3682
E-mail: ray@cleantransportationfunding.org

- For **Contractual Assistance**, please contact:

Dean Hughbanks
AQMD Procurement Manager
Phone: 909-396-2808
E-mail: dhughbanks@aqmd.gov

SECTION 9 - PROPOSAL EVALUATION & SCORING

Proposals received prior to the submittal deadline will be forwarded to an Evaluation Subcommittee comprised of members of the MSRC Technical Advisory Committee (MSRC-TAC). Proposals will be evaluated and scored against (3) evaluation criteria: Cost-Effectiveness, Project

Readiness, and the percentage of trips that serve freight facilities in the Inland Empire. The total points available is 100, with each evaluation criterion weighted as follows.

1. **Criteria Air Pollutant Emissions Reduction Cost-Effectiveness** (50 points maximum score) – Reductions in criteria air pollutant emissions in the South Coast AQMD Region, and particularly the Inland Empire, are the primary motivation for releasing this Request for Proposals. Proposals will be evaluated based on the quantifiable reduction in reactive organic gases, oxides of nitrogen (NO_x), and diesel particulate matter exhaust pollution as compared to the current Tier 4 Final off-road diesel emission standards and CARB on-road heavy-duty emissions standard. Cost-effectiveness will be computed as the ratio of the quantified air pollutant reductions per MSRC funding requested. The quantification methodologies included in the Air Resources Board's 2017 Carl Moyer Memorial Air Quality Standards Attainment Program Guidelines will be used to the extent applicable to ensure consistency in proposal evaluation.

As discussed in Section 3.3, proposals seeking MSRC funds for infrastructure-only are eligible but must include the information requested under Section 6.4.1, above, to allow co-funded zero/near-zero CHE emission reductions to be quantified. Cost-effectiveness will be calculated based on the co-funded zero/near-zero vehicle component of the overall project.

IMPORTANT! If the infrastructure to be constructed at the freight facility is intended to support on-road heavy-duty trucks that dray goods to that facility, provide information as it relates to the number of on-road heavy-duty trucks, the average daily or weekly miles traveled per vehicle, anticipated routes, and total average annual miles per vehicle.

IMPORTANT! To facilitate proposal evaluation with respect to air pollutant cost-effectiveness, ensure that all requested information and documentation relating to the CHE duty cycle and hours of operation/mileage accrual is provided.

2. **Project Readiness** (50 points maximum) – This evaluation criterion assesses a proposed project's perceived ability to adhere to the proposed schedule and budget. Factors that will impact a project's successful implementation within budget and schedule projections include:
 - Zero/Near-Zero Vehicle Acquisition:
 - Have the zero/near-zero vehicles proposed for deployment under this project been specified?
 - Has the sales or leasing agent been contacted, and are negotiations underway?

- Is the proposer ready to execute a vehicle purchase order upon MSRC funding award?
- Supporting Infrastructure Development:
 - Has an equipment specification for supporting EVSE or gaseous fuel infrastructure been prepared?
 - What is the stage of site planning, i.e., preliminary design, final design, etc.
 - Has coordination begun with the cognizant utilities?
- Project Funding:
 - Has the necessary project co-funding been identified?
 - Is co-funding in hand or applied for?
 - Will final status of other pending funding awards be known within the first quarter of calendar year 2021?

IMPORTANT! Proposers should address the Project Readiness criteria listed above within the narrative of their Project Description. The MSRC is less concerned with project implementation immediacy as compared to understanding the true status of a project's state of readiness. Thus, it is requested that proposers provide accurate information regarding the project's state of readiness in a forthcoming manner.

AGENDA ITEM #8

2020-2021 Clean Fuels/Clean Technologies
Conference Calendar

Clean Fuels and Clean Technologies Conference Calendar for 2020 - 2021

September 2020

- Sept 11** **California Air Quality Awards, Los Angeles, CA. Website:**
<https://www.ccair.org/events/california-air-quality-awards/>
- Sept 14-17** **North America Smart Energy Week, Anaheim, CA. Website:**
<https://www.solarpowerinternational.com/>
- Sept 14-17 Hydrogen + Fuel Cells International, Anaheim, CA., Website:
<https://10times.com/hydrogen-fuel-cells-international>
- Sept 15-17** **Zero Emission Bus Conference, On Line/Virtual, Website:**
<https://www.zebconference2020.com/>
- Sept 15-17 Electric & Hybrid Vehicle Technology Expo, Novi, MI., Website:
<https://evtechexpo.com/>
- Sept 15-17 The Battery Show, Novi, MI., Website:
<https://thebatteryshow.com/>
- Sept 26-Oct 4 National Drive Electric Week, Website:
<https://driveelectricweek.org/events.php>

October 2020

- Oct 7 California Clean Air Day, Website: <https://cleanairday.org/>
- Oct 21-22 2020 Battery & Energy Storage Conference, New York, NY., Website:
<https://www.aidc.org/cei/conferences/battery-and-energy-conference/2020>
- Oct 22** **Green California Schools & Community Colleges Summit, Pasadena, CA.**
Website: <https://10times.com/>
- Oct 28-29 American Assoc. of Port Authorities – Energy & Environment, New Orleans, LA.,
Website: https://my.aapa-ports.org/Public/Events/Event_Display.aspx?EventKey=20ENERGY
- Oct 29-30 International Conference on Hydrogen Fuel Cell, Los Angeles, CA., Website:
<https://www.conferenceindex.org/event/international-conference-on-hydrogen-and-fuel-cell-technology-ichfct-2020-october-los-angeles-us>

November 2020

- Nov 2-5** **Advanced Automotive Battery Conference, San Francisco, CA. Website:**
<https://www.advancedautobat.com/us>
- Nov 18-19 Electric Vehicles: Everything is Changing-Conference, Santa Clara, CA., Website:
<https://www.idtechex.com/electric-vehicles-usa/show/en/>

December 2020

- Dec 1-3 Air Quality Measurement Methods & Tech Conference, San Diego, CA., Website:
https://www.awma.org/ev_calendar_day.asp?date=12/1/2020&eventid=146
- Dec 6-9 Behavior, Energy & Climate Change 2020 Conference, Washington D.C. (**Registration on Hold**) Website: <https://beccconference.org/>

February 2021

- Feb 16-18 SAE Hybrid & Electric Vehicle Technologies Symposium, Pasadena, CA. Website:**
<https://eventsinamerica.com/events/2021-sae-hybrid-electric-vehicle-technologies-symposium/transportation/cars-trucks/h7ijheii9sj1gseq>

April 2021

- Apr 27-30 Air Sensors International Conference, UC Riverside, Pasadena, CA., Website:**
<https://asic.agrc.ucdavis.edu/>

September 2021

- Sept 12-15 International Hydrogen Conference, Grand Teton National Park, Wy., Website:**
<http://conferences.illinois.edu/hydrogen/registration.html>
- Sept 14-16 Motion + Power Technology Expo, St. Louis, MO., Website:**
<https://motionpowerexpo.com/about-the-show/>

For the latest updates on the listed conferences, please call the conference contact person directly

Last updated 6/9/2020 (**Items in bold were recently added**).
