5. Consider Awards for Six Projects Specified in Memoranda of Understanding with Ports of Long Beach and Los Angeles

Ravenstein

In August 2024, the MSRC approved Memoranda of Understanding (MOUs) with the Ports of Long Beach (POLB) and Los Angeles (POLA). The MOUs established frameworks that allow POLB and POLA to invest their Clean Truck Fund rate proceeds in heavy-duty zero-emission drayage truck charging infrastructure projects that would be administered by the MSRC. Eight total projects, to be implemented by four project implementers, were specified therein. The MOUs have now been executed. To effectuate the projects, the MSRC must authorize awards from the funds being conveyed by POLB and POLA. The MSRC Contracts Administrator recommends awards to Clean Energy, TeraWatt Infrastructure Inc., and Forum Mobility, in a total amount not to exceed \$15,950,868. Consideration of the Electrify America projects will be brought forward at a future meeting. **THE MSRC-TAC UNANIMOUSLY RECOMMENDS APPROVAL.**

5. Consider 1-Year Term Extension by City of Los Angeles, Contract #ML18082 (\$900,000 - Purchase 8 Medium-Duty Vehicles and Install 8 Limited-Access EV Charging Infrastructures)

Cynthia Ravenstein, MSRC Contracts Administrator, presented that the City requested a one-year contract term extension due to delays in the release of the vehicle purchase orders, vehicle parts supply issues, and network connection issues at their East Valley District Yard. This contract had previously been extended by one year. The MSRC Contracts Administrator and MSRC-TAC recommend approval, conditioned on no further extensions.

Chair Larry McCallon asked for public comment on item number 5.

No public comment.

6. Consider 2-Year Term Extension by City of Mission Viejo, Contract #ML18068 (\$86,940 - Purchase 2 Light-Duty ZEVs and Install EVSE)

Cynthia Ravenstein, MSRC Contracts Administrator, presented that in the City of Mission Viejo's assessment; by locating the charging stations at their new Los Osos development, the stations will achieve a much higher utilization rate than in the originally proposed City Hall location. The City also requested a two-year term extension to complete construction of the development and stations. The MSRC Contracts Administrator recommends approval, conditioned on no further extensions; MSRC-TAC recommends approval without conditions.

Chair McCallon asked members for questions and thoughts on the extension.

MSRC member Patrick Harper supports the MSRC-TAC's recommendation. It is the first time the City has requested an extension and there could be delays to the development. He states the City will make its best efforts to make it happen within the two-year extension.

MSRC Member Dr. William Robertson asked if we know the stage of the development. Ms. Ravenstein answered that the development is 80% complete on grading and site plans, planning on advertising for construction bids in October. Nothing has been built. Ms. Ravenstein continued to explain their contract was different in that they wanted their vehicles before any infrastructure was built.

MSRC Member Linda Krupa asked what happens if the MSRC grants a 2-year extension with conditions and it's not completed at the end of that period of time. Ms. Ravenstein explained that the funding would end up reverting to the MSRC. The City would not receive any funding for the infrastructure portion of the project and the MSRC would use the funds for a different purpose.

Mr. Henderson is in support of the TAC's recommendation.

Chair Larry McCallon asked for public comment on item number 6.

No public comment.

7. Consider 19-Month Extension by City of Riverside, Contract #ML18063 (\$50,000 - Expand Existing CNG Station)

Cynthia Ravenstein, MSRC Contracts Administrator, presented the City of Riverside's request for a term extension to September 30, 2029 due to difficulties finding a qualified vendor and issues with the anchoring system for the storage spheres. This contract has previously been extended by fourteen months. The MSRC Contracts Administrator and MSRC-TAC recommend approval, conditioned on no further extensions.

Chair Larry McCallon confirmed that this term extension includes the five-year operational period.

Chair McCallon asked for public comment on item number 7.

No public comment.

Moved by Harper to approve Item 5 as recommended, to approve Item 6 with no conditions and to approve Item 7 as the final extension; seconded by Henderson; under approval of Action Calendar Items #5-7, items unanimously approved.

Noes: None

Action: Staff will amend the above contracts accordingly.

8. Clarify that MSRC Allocation Partnering with Penske Truck Rental in Responding to South Coast AQMD Carl Moyer Program Announcement PA2024-02, Zero Emission Infrastructure Program Includes Partnering under Earlier South Coast AQMD Carl Moyer Program Opportunities

Cynthia Ravenstein, MSRC Contracts Administrator, said in September 2022, an RFI for zero-emission infrastructure led to Penske's response in November 2022 with an

EV charging project for 20 locations in the South Coast Air Basin. In 2023, Penske applied for funding under AQMD's Carl Moyer Program. In January 2024, MSRC partnered with Penske for the same project under a different Carl Moyer Program. In February 2024, they received funding for five of the locations, totaling nearly \$6.4 million, with Penske contributing over \$2.2 million, for a total project cost of about \$15 million.

Penske initially would have received \$17.9 million from MSRC for all 20 locations. MSRC Member Henderson discussed the financial situation with Ms. Ravenstein and Chair McCallon asked what the timeline is on the additional funding. Ms. Ravenstein answered that the status of Carl Moyer Program funding for the remaining 15 locations is uncertain, and there may be upcoming awards that could affect total funding.

The discussion revolves around the timing of the next Moyer awards and the availability of funds for projects. Currently, the expectation is that the next awards of Moyer funding will occur in Q4 2024. There's confusion regarding contract terms, as no contracts can be finalized until Moyer funding is awarded, and different projects may have varying complexities affecting funding distribution.

Ms. Ravenstein continued that the MSRC is being asked to clarify its allocation, which involves partnering with Penske and responding to the PA 2024-02 proposal. A total of \$6,353,697 will be awarded to Penske for projects that were awarded Carl Moyer funding under an announcement preceding PA 2024-02, while \$11,626,303 will remain allocated under the original terms, contingent on the outcome of PA 2024-02. This recommendation comes from the MSRC Contracts Administrator and the MSRC-TAC.

Linda Krupa stepped out of the meeting at 2:40 p.m.

Chair Larry McCallon asked for public comment on item number 8.

No public comment.

Moved by Harper; seconded by Robertson; item approved.

Ayes: Henderson, Harper, Lum, Robertson, McCallon

Noes: None

Action: MSRC staff will forward item to the South Coast AQMD Board for approval

9. Evaluate Performance of MSRC Website and Consider Potential Next Steps

Cynthia Ravenstein, MSRC Contracts Administrator, presented that MSRC's www.cleantransportationfunding.org website provides essential services, including access to historical and current information for contractors and applicants. It allows online submissions and features documents like solicitation materials, agendas, and press releases. In 2017, the site was revamped, and in 2020, it was decided to maintain its current form.

The MSRC-TAC recommends that the MSRC develop a Request for Proposals (RFP) for website hosting and maintenance, including a supplemental quote for limited modifications. Additionally, they recommended exploration of alternative solicitation methods like Planet Bids for posting and accepting proposals.

Chair Larry McCallon asked for public comment on item number 9.

No public comment.

Moved by Harper; seconded by Robertson; item approved.

Ayes: Henderson, Harper, Lum, Robertson, McCallon

Noes: None

Action: MSRC staff and the MSRC-TAC will develop a proposed RFP for MSRC review and approval

10. Approve Memorandum of Understanding between: 1) the South Coast AQMD on behalf of the MSRC and the Port of Long Beach and 2) South Coast AQMD on behalf of the MSRC and the Port of Los Angeles

Linda Krupa rejoined the meeting at 2:48 p.m.

Ray Gorski, MSRC Technical Advisor, said the MSRC is requesting approval for a Memorandum of Understanding (MOU) with the San Pedro Bay ports (Long Beach and Los Angeles) to facilitate investment in a work program aimed at funding infrastructure for zero-emission heavy-duty drayage trucks. The Ports will contribute over \$25 million, enabling the installation of more than 200 EV chargers. This partnership aims to support California's clean air goals and enhance MSRC's capacity to fund additional projects.

MSRC Member Henderson stated his appreciation for such a project and the desire for recognition of the MSRC's contributions. There's a suggestion for signage or branding to identify MSRC's role. Mr. Gorski confirmed that incorporating the MSRC logo in agreements is possible, and they aim to strengthen partnerships for future projects. The conversation emphasized the importance of recognizing contributions while ensuring the MOU is signed before moving forward.

The MSRC-TAC recommends the MSRC approve MOUs with the Port of Long Beach and the Port of Los Angeles as outlined in the staff report.

Chair Larry McCallon asked for public comment on item number 10.

No public comment.

Moved by Henderson; seconded by Harper, item unanimously approved.

Ayes: Krupa, Henderson, Harper, Lum, Robertson, McCallon

Noes: None

Action: MSRC staff forward this item to South Coast AQMD Governing Board for approval

11. Consider Partnership Opportunity with the California Department of Transportation (Caltrans) and California Energy Commission (CEC) to Pursue Funding Under the US Department of Transportation (US DOT) Charging and Fueling Infrastructure Grant Program.

Ray Gorski, MSRC Technical Advisor, presented that last year, the MSRC committed up to \$6 million to collaborate with Caltrans and the California Energy Commission in pursuit of US DOT funding for charging and fueling infrastructure. Although their initial project was deemed meritorious, it did not secure funding due to high demand. This year, a new funding round allows for resubmission of last year's proposals and new projects. MSRC is being asked to reaffirm its funding commitment.

The recommendation is that the Chair provide a letter to Caltrans, indicating a maximum award of up to \$6 million in MSRC funds. This is contingent on receiving a US DOT award, the amount of that award, and which projects get funded. Future actions will be required from the MSRC, and we will return for guidance on fund allocation upon award receipt.

Chair Larry McCallon asked for public comment on item number 11.

No public comment.

Moved by Krupa; seconded by Harper, item unanimously approved.

Ayes: Krupa, Henderson, Harper, Lum, Robertson, McCallon

Noes: None

Action: MSRC staff will prepare a letter of support for the Chair's signature

12. Consider MSRC-Los Angeles County Metropolitan Transportation Authority (Metro) Joint Request for Information for Potential Metro Submission to California Transportation Commission (CTC) Zero Emission Infrastructure Funding Program

Ray Gorski, MSRC Technical Advisor, said earlier this year, the MSRC entered into a cooperative agreement with Los Angeles Metro to pursue mutually beneficial opportunities. The first opportunity is to apply for funding from the CTC under the TCEP program for heavy-duty refueling infrastructure along the I-710 corridor, covering 23 communities. An RFI will be issued to identify viable sites for this initiative, aiming to co-fund projects and potentially inform future Caltrans initiatives without committing funds upfront.

The discussion revolves around authorizing staff to proceed with a Request for Information (RFI) for potential fueling sites along a specific corridor. Chair McCallon asked if we know how many sites are viable. Mr. Gorski continues this is simply casting the net to identify sites which would be willing partners in a future potential project. If we find good sites, we will put together a proposal for submittal to the CTC. This step does not imply a funding commitment but aims to explore opportunities for electric vehicle infrastructure. The need for more refueling options is emphasized due to the anticipated rise in zero-emission vehicles, while the collaboration with utilities is acknowledged as a key factor in successful implementation.

Chair Larry McCallon asked for public comment on item number 12.

No public comment.

Moved by Harper; seconded by Henderson, item unanimously approved.

Ayes: Krupa, Henderson, Harper, Lum, Robertson, McCallon

Noes: None

Action: Staff will forward the RFI to the South Coast AQMD Board for approval

OTHER BUSINESS:

Chair McCallon asked if anyone has other business.

AGENDA ITEM # 2

Summary of Final Reports by MSRC Contractors

MSRC Agenda Item No. 2

Date: January 16, 2025
From: Ray Gorski, MSRC Technical Advisor
Subject: Final Reports Received and Reviewed

Two (2) Final Reports were submitted for MSRC review and approval:

- Premium Transportation Services, Inc. dba Total Transportation Services (TTSI) – Zero & Near Zero Emission Trucking to Warehouse, Distribution & Intermodal Facilities in Riverside and San Bernadino Counties, Contract #MS21015.
- Pac Anchor Transportation, Inc. – Zero & Near-Zero Emissions Trucking to Warehouse, Distribution & Intermodal Facilities in Riverside & San Bernardino, Contract #MS21018.

A summary of each Final Report is attached. The MSRC-TAC has reviewed the Final Reports and recommends approval.

Premium Transportation Services, Inc. dba Total Transportation Services (TTSI) – Zero & Near Zero Emission Trucking to Warehouse, Distribution & Intermodal Facilities in Riverside and San Bernadino Counties

Project Description & Work Performed: This project deployed 15 near-zero emission semi tractors—ten (10) model year 2022 Volvo trucks and five (5) 2022 Mack Anthem trucks. All the tractors are equipped with the Cummins ISX12N-400 natural gas engines. For this Final Report Summary, “near-zero” is defined as an engine certified to the pre-2025 CARB Optional Low NOX standards.

The project focused on deploying near-zero emission trucks to reduce emissions in key transportation corridors. The fleet of long-haul drayage trucks operates from two locations:

- 300 Ferry Street, San Pedro, CA: Adjacent to the Port of Long Beach, serving port-related operations.
- 9813 Almond Avenue, Fontana, CA: Supporting distribution routes between centers in Riverside and San Bernardino Counties.

The trucks run exclusively within the South Coast Air Basin, with over 92% of their trips originating from the Ports of Los Angeles and Long Beach to various Inland Empire distribution facilities. This project included the relocation of 10 older diesel trucks (model years 2016 and 2017) to Illinois upon deployment of the new Compressed Natural Gas (CNG) trucks. This transition aligns with TTSI’s 2017 commitment to fully convert its California fleet to zero and near-zero emission technologies. All new trucks operate on renewable natural gas (RNG) to maximize environmental benefits.

One truck experienced a Cummins engine failure, leading to an extended downtime of over four months. The repair was covered under the manufacturer’s warranty; however, the truck’s unavailability impacted operations during that period.

Outreach & Promotion: TTSI promoted the MSRC-co-funded project in the industry publication *Fleet Owner*:

<https://www.fleetowner.com/emissions-efficiency/internal-combustion-engines/article/21704309/california-port-trucking-company-replaces-diesel-fleet-with-cng-trucks>)

Air Quality Benefits: The 15 semi tractors will reduce oxides of nitrogen (NOx) emissions on the order of **3.77 tons** over the anticipated seven (7) year project life.

Pac Anchor Transportation, Inc. – Zero & Near-Zero Emissions Trucking to Warehouse, Distribution & Intermodal Facilities in Riverside & San Bernardino

Project Description & Work Performed: The project consisted of a total of five (5) compressed natural gas (CNG) Freightliner semi tractors. Pac Anchor Transportation (Pac Anchor) placed the order for the trucks in Q4, 2023. The five trucks were delivered and placed into revenue service before the end of Q4, 2023. To date, the trucks continue to be in service and run without any major issues.

Pac Anchor mechanics train new drivers on how to use CNG vehicles and review safety protocols. The Pac Anchor fleet consists primarily of CNG trucks meet the South Coast AQMD's WAIRE Program (Rule 2305) requirements. This allows Pac Anchor customers to receive credits and not be liable for any fees for not using clean fleet vehicles.

Outreach & Promotion:

The Pac Anchor Transportation website has information regarding their participation in the MSRC Clean Transportation Funding™ program (Website: <https://pacanchor.com/services/clean-energy/>).

In addition, Pac Anchor promotes the MSRC co-funding program through social media, including a YouTube promotional video: (<https://youtu.be/J4MzEYdjV1E?si=Kks913rD48E3Amsd>).

Air Quality Benefits: The five (5) CNG Freightliner semi tractors will reduce oxides of nitrogen (NOx) emissions on the order of **1.23 ton** over the anticipated seven (7) year project life.

AGENDA ITEM # 5

Consider Awards for Six Projects Specified in Memoranda of Understanding with
Ports of Long Beach and Los Angeles

MSRC Agenda Item No. 5

DATE: January 16, 2025

FROM: Cynthia Ravenstein, MSRC Contracts Administrator

SUBJECT: Consider Awards for Six Projects Specified in Memoranda of Understanding with Ports of Long Beach and Los Angeles

SYNOPSIS: In August 2024, the MSRC approved Memoranda of Understanding (MOUs) with the Ports of Long Beach (POLB) and Los Angeles (POLA). The MOUs established frameworks that allow POLB and POLA to invest their Clean Truck Fund rate proceeds in heavy-duty zero-emission drayage truck charging infrastructure projects that would be administered by the MSRC. Eight total projects, to be implemented by four project implementers, were specified therein. The MOUs have now been executed. To effectuate the projects, the MSRC must authorize awards from the funds being conveyed by POLB and POLA.

RECOMMENDATION: The MSRC Contracts Administrator recommends awards to Clean Energy, TeraWatt Infrastructure Inc., and Forum Mobility, Inc. in a total amount not to exceed \$15,950,868. The MSRC-TAC reviewed the recommendation and recommends approval of the awards.

WORK PROGRAM IMPACT: No allocation of **Clean Transportation Funding™** is necessary to implement the projects specified in the MOUs. POLB and POLA will transfer funding to cover a share of project costs.

Overview: MSRC RFI 2023-01 was released on September 2, 2022, requesting submittal of Information Packages seeking partnerships to facilitate investment in zero-emission infrastructure to support the transition of goods movement trucks to zero-emissions within the South Coast AQMD region. A total of \$50M was allocated by the MSRC for this Work Program category. The RFI closing date was November 30, 2022.

The Port of Long Beach (POLB) and Port of Los Angeles (POLA) both responded to the RFI, expressing an interest to investigate partnership opportunities to implement charging infrastructure projects that would benefit zero-emission heavy-duty drayage trucks operating at the Ports. As a result of a collaborative work effort involving the MSRC and the staff of POLB and POLA, a list of RFI projects were identified that were deemed meritorious and would further the Ports' goal of expanding accessible zero-emission charging infrastructure.

To facilitate a partnership between POLB, POLA, and the South Coast AQMD on behalf of the MSRC, Memoranda of Understanding (MOUs) between South Coast AQMD/MSRC and POLB and South Coast AQMD/MSRC and POLA were developed. These MOUs outline the terms and conditions to allow each Port to invest their respective Clean Truck Fund rate proceeds towards projects included in each MOU. Eight total projects, to be implemented by four project implementers - Clean Energy, TeraWatt Infrastructure Inc., Forum Mobility, Inc., and Electrify America - were specified therein.

The MSRC approved the MOUs in August 2024, and the South Coast AQMD approved the MOUs in September 2024. The MOUs have now been executed. To effectuate the projects, the MSRC must authorize awards from the funds being conveyed by POLB and POLA.

TeraWatt Infrastructure Inc., changes: In the time since the RFI responses were originally submitted, the number of charging stalls planned for each of the four TeraWatt Infrastructure Inc., locations has changed. Some locations will have a greater number of charging stalls than originally specified in the MOUs and some locations will have a lesser number of charging stalls. Consequently, it is necessary to pro-rate the proposed award to TeraWatt Infrastructure Inc., from a not-to-exceed amount of \$8,000,000 to a not-to-exceed amount of \$6,785,714.

A fourth recipient, Electrify America, is named in the MOUs. MSRC staff is working to obtain updated status information from Electrify America and anticipates bringing forward a report for consideration in February.

Recommendations: The MSRC Contracts Administrator recommends awards to Clean Energy, TeraWatt Infrastructure Inc., and Forum Mobility Inc. in a total amount not to exceed \$15,950,868 and as further detailed in Table 1 below. The MSRC-TAC reviewed the recommendation and recommends approval of the awards.

Table 1 –Recommended Awards to Ports MOU Recipients

RECIPIENT	Not-to-Exceed Award Amount
Clean Energy	\$3,165,154
Forum Mobility, Inc.	\$6,000,000
TeraWatt Infrastructure Inc. (4 locations)	\$6,785,714
Total	\$15,950,868
